

The background of the slide is a faded, grayscale photograph of a park. It shows a dirt path leading through a line of tall, thin trees on the left and a larger, leafy tree on the right. In the distance, there are picnic tables and a building. The overall tone is soft and natural.

Project Overview

Community Context

- Across Canada, seniors are outnumbering children
- As early as 2030, one in four Canadians may be over the age of 65
- In Lantzville, over 1/2 of population is aged 45-74 and app. 1/4% is over the age of 65 years old
 - By 2036, over 30% of people may be over 65

8 PILLARS

Age-Friendly Assessment – Summary

1. Outdoor Spaces & Buildings

Where Are We Now? / What Is Being Done?

- Some public spaces and buildings lack pedestrian safety or accessibility upgrades (e.g., ramps)
- Parks have limited age-friendly amenities but larger green spaces are well-used for recreation
- Village Commercial Core Improvement Plan focuses on streetscape and mobility improvements
- District continues to work with landowners to acquire large natural park areas and recreational trail networks.

2. Transportation & Mobility

Where Are We Now? / What Is Being Done?

- Lack of sidewalks and pedestrian infrastructure on most roads – new standards to address this
- Residents mostly commute by private vehicles (92%), but increasing demand for active modes for 55+,
- Many bus stops in town have accessibility limitations
- OCP calls for the creation of a safer road network and better connections
- New multi-use path extensions planned at E&N and along Lantzville Rd

3. Housing

Where Are We Now? / What Is Being Done?

- Housing is mostly single detached housing, with limited choices for aging in place (e.g., attainable or adaptable housing)
- OCP Goal 4 aspires to provide housing choices in the village and SPAs
- Economic Development Strategy (2018) includes strategies for attracting seniors-oriented housing
- Older adults have difficulty finding people to perform basic services such as gardening and house-cleaning.

4-5. Social Participation / Inclusion

Where Are We Now? / What Is Being Done?

- Lantzville is seen as a welcoming community for people of all ages.
- More seniors live alone in Lantzville than in the rest of BC
- Some residents experience physical and social isolation – can be detrimental to well-being – pandemic can aggravate this
- Local organizations create meaningful social networks for seniors
- Agreement with the RDN for residents to use Nanaimo's 4 recreation centres.
- Limited places for people to meet and gather – but some key spots

6. Civic Participation & Employment

Where Are We Now? / What Is Being Done?

- General lack of employment opportunities for older adults in Lantzville.
- Residents have limited awareness of volunteer and employment opportunities
- Organizations have limited ability to effectively recruit volunteers for opportunities that exist
- Seniors are reported to be active in community issues and civic events, and Council Committees

7. Communication & Information

Where Are We Now? / What Is Being Done?

- A variety of methods used to reach seniors in Lantzville, including digital media and District's newsletter
- Limited knowledge about the range of programs, services, and other types of support available
- Some residents report need to improve communication between the District and older adults
- Need to improve coordination and communication between community partners is needed
- Some concern over ease of access to online Council meeting

8. Community Support & Health Services

Where Are We Now? / What Is Being Done?

- Seniors-specific health services are limited in Lantzville; though, some services exist and health care is available in Nanaimo
- Seniors-oriented health services, such as in-home care, can be unaffordable.
- Residents report a high level of community support for seniors, while others report social isolation
- The health care system can be difficult to navigate and access, in particular for those with limited mobility.

ACTION PLAN

STRATEGIES & ACTIONS

Commentary

Age-Friendly Planning

- Big Challenge of AF Plans
 - 8 Pillars = broad scope, small budget
- Pathways to Success
 - Civic Commitment – plan as a *catalyst* (not just a product)
 - Focus Areas & Contextual Action Planning
 - Age-friendly & Healthy Communities Lens
 - Confront the ‘roots’ of less healthy communities

Making it Happen

An Age-Friendly Culture

- Adopting an age-friendly lens
- Applying an inter-departmental, cross-agency approach to age-friendly initiatives
- Building civic advocacy and advisory capacity for age-friendly initiatives
- Strengthening internal and external connections and partnerships
- Engaging on-going support from provincial and federal agencies

Making it Happen

The District's Role

- Being or identifying a local champion to advocate for and carry initiatives forward
- Supporting or leading communication efforts and raising community awareness about planning initiatives
- Providing space and funding where appropriate
- Developing partnerships with service providers, businesses, organizations, and public agencies
- Initiating action planning on an annual basis and monitoring its progress
