Project Activities and Results

8. What was the overall goal of your project? What did you intend to achieve? *

9. Please explain how your project was successful.
What changes occurred as a result of this project? How have these results benefitted your community? *

10. How did this project encourage community connectedness and inclusivity in your community?

11. Please explain how this project contributed to the development of a healthy public policy in your community. For example:

- helped create equitable engagements towards the development of healthy public policies
- developed an equity informed policy framework
- integrated an equity lens into an existing policy framework
- created data that will be used as input into the new or modified policy

12. Did you (or your team) apply an **equity lens** to your project in any way? For example, you established an advisory committee that included people of different age groups, or different lived experiences. Another example might be intentionally including different groups of people in your survey.

○ Yes

○ No

13. Please describe how you/your team applied an equity lens to your PlanH project or process. For example, what opportunities did this grant for inclusion, distribution of resources or reducing barriers for participation from underrepresented groups?

14. If an equity lens was not applied to your project or process, please elaborate on what challenges you faced and what might be done differently next time.

Project Activities and Results

15. What worked well? Were there any challenges that needed to be managed? What, if anything, would you do differently next time?

16. Did anything interesting or unexpected occur during your project that you would like to share?
